

Holy Cross School, Agartala

Class : III

Subject : Moral Science

Topic: 3A, 3B Love of books

I. Answer the following questions:

1. Why is reading books good for the mind?

Ans. Reading books is very good for the mind because it makes us think. The more we think, the more our brain develops. Reading books help us in becoming bright and intelligent.

2. How does watching too much TV, affect us?

Ans. Watching too much TV, slows the working of our brain. As we do not think much while watching TV, our minds also stay inactive. We slowly become dull and forgetful.

3. What kind of books should we read?

Ans. We should read the books that we really enjoy. It could be storybooks, books about world, people, places, funfacts, records, jokes, etc.

I. Write 'True' or 'False'

1. We should read in poor light. **False**
2. We should not slouch while reading. **True**
3. Books can give you a lot of joy. **True**
