

Chapter-6 Houses Around us

Give Reasons

1. In places with heavy rainfall, people build houses are on stilt.
→ In places with heavy rainfall people build houses are on stilt because these stilt hold the house high above the ground, to stop rainwater from damaging it.
2. Bungalows and duplex houses are commonly found in small cities.
→ Bungalows and duplex houses are commonly found in small cities because land and the building material are cheaper there.

Write True or False.

1. Some people in Kashmir live in houseboat. True.
2. Sunlight lets germs spread. False.
3. Warm and stale air rises up. True.
4. We should not keep our homes clean. False.
